Gentlemen:

I wish to call your attention to my contract specialties-- Okra and Pearl Millet.

I grow all seed on my own lands and under my personal supervision. By planting liberal acreage I am enabled to make excellent deliveries.

My seed stocks of Okra are of the highest purity, and I feel that I am in position to serve you to better advantage than anyone.

I have been growing for more than twenty years, and have critical seedsmen who have been giving me their contracts regularly for the entire time.

I will be glad to have a list of your requirements, when I will take pleasure in quoting with a view of securing your contracts.

Thanking you in advance, I am,

Yours truly,

H. H. Arrington

P. S.-- I have small supplies of the
